Oracle Cloud Readiness Assessment

Your Success is Our Priority

ORACLE | Partner

Background

Are you considering a migration of your key ERP system into the Cloud?

Your organisation is currently utilizing an on-premise solution, it works, it is looked after by a team that also maintains many of the important applications and functions within your business.

With added competitive pressures, changes in working practices and increases in support costs, are you ready to investigate a jump to Oracle Cloud?

You may have many questions, such as;

- How do I invest in Cloud?
- Will I manage to improve my processes/efficiency?
- What do I do with, and how do I manage, my data?
- What do I do with my current licenses?
- What about Oracle Cloud Infrastructure and how can we benefit?

All very relevant questions that your organisation will want answered.
